			next 24 hrs → traffic specialist consult for more shrinking of the footprint. Maybe we moving ^{to} Delta (move from south to north) potentially up to Queen St. @ earliest overnight Media messaging will have to be very clear. So they know something will be happening. Once @ Queen - want heavy QRT (Laurier to bronson) so we own it if any intentions on going back to Laurier for weekend will not be taken well by residents - keep staffing the same. POU same if we want had to go back to alpha then easier from Charlie then Delta. modification of posture only affects traffic points not QRTS!
